*Beekeeping can be a profitable
sideline or a full-time occupation. Almost
anyone can keep bees. You may want to
keep bees for the delicious fresh honey they
produce, for the benefits of their valuable
services as pollinators, or perhaps just for
the fun of learning more about one of
nature's most interesting insects.*

The Northwestern Pennsylvania Beekeepers Association (NWPBA) was re-established in 2001. Previously, the Association existed for many years but disbanded about 1990 for a variety of reasons including aging beekeepers and heavy losses due to the arrival of varroa mites. Keeping with tradition, it continues serving the five counties of Warren, Erie, Crawford, Venango and Mercer. NWPBA has been an important resource in maintaining a working relationship with local media, farm organizations and a growing interest in beekeeping. Membership began with 25 and has grown to over 150.

Some of our members are professional beekeepers while some are just getting started. All share an interest in the wonderful and remarkable world of the honey bee. The purpose of the NWPBA is to provide our members with interesting and practical information about honey bees and beekeeping techniques. The club also provides the general public with educational programs about benefits of bees and beekeeping in our communities. We are non-profit, charitable organization. If you share our interest - please join us!
